PROFESSIONAL SUMMARY

Biomedical Engineering graduate (B.E., AI/ML Minor) with hands-on hospital and field service exposure across medical equipment sales, installation, PPM/CMM, and calibration for patient monitors, ventilators, infusion pumps, defibrillators, and diagnostic imaging systems from OEMs including Nihon Kohden, Mindray, Philips, Drager, and ResMed. Comfortable positioning technical product value to clinical buyers, coordinating AMC and warranty cycles, and supporting tender and procurement documentation, aligned with DHA, JCIA, and DOH/MOHAP standards. Design Patent holder and published researcher in IoT-based healthcare monitoring. Based in Dubai, UAE, available immediately for GCC-wide biomedical sales, application, and procurement-support roles.

CORE COMPETENCIES

Medical Equipment Sales & Business Development | Client Relationship Management | Tender & Procurement Coordination | Equipment Installation & Commissioning

PPM & Corrective Maintenance (CMM) | AMC & Warranty Management | Technical Product Demonstration | Vendor & OEM Liaison

DHA, JCIA, DOH & MOHAP Compliance Awareness | ISO 13485 & IEC 60601 Awareness | CRM & CMMS Documentation

KEY STRENGTHS

Immediate Joiner in Dubai, UAE | Trilingual — English, Tamil, Malayalam | Client-Facing Communication | Fast Learner, Detail-Oriented | Willing to Travel (Valid Driving License)

EQUIPMENT & OEM EXPOSURE — HANDS-ON

- **Defibrillators:** Nihon Kohden, Mindray
- **Ultrasound Systems:** Philips
- **Patient Monitors & Infusion/Syringe Pumps:** Drager, Nihon Kohden
- **Ventilators:** Multiple OEM brands — ICU and portable units
- **BiPAP / Respiratory Support:** ResMed
- **Diathermy Units:** Excel
- **Radiant Warmers:** Phoenix
- **Surgical Light Sources:** Omega Serwell

PROFESSIONAL EXPERIENCE

Biomedical Sales & Service Trainee

Apr 2026 – May 2026

Hospitaall Needs — Calibration, Installation & Services — Coimbatore, India

- Supported medical equipment sales, installation, and after-sales service across 10+ device units in a live clinical service environment, working directly with hospital and clinic customers.

- Assisted senior service engineers with on-site installation and commissioning, ensuring alignment with manufacturer specifications and customer requirements.
- Coordinated AMC follow-ups, warranty claims, and spare-parts/vendor liaison alongside fault diagnosis and service documentation.

Biomedical Engineering Intern

Jun 2025 - Dec 2025

G. Kuppuswamy Naidu Memorial (GKNM) Hospital — NABH-Accredited Tertiary Care Hospital — Coimbatore, India

- Performed PPM and CMM across 5–10 biomedical devices in ICU, OT, and general ward settings, including calibration support and performance verification.
- Documented equipment installation, commissioning, and acceptance testing procedures alongside senior biomedical engineers.
- Diagnosed equipment faults and executed troubleshooting/escalation procedures per hospital protocols, maintaining accurate service records.

ACADEMIC PROJECTS & PUBLICATIONS

- EMG-Controlled Rehabilitation Therapy System — registered Design Patent (IP India, Design No. 491850-001); co-authored publication (ISBN 978-93-342-4986-6).
- Wireless PPG-Based IoT Blood Pressure Monitoring System — co-authored publication (DOI 10.63001/tbs.2024.v19.i03.pp120-125).
- Bone-Anchored Hearing Aid Prototype — bone-conduction hardware integration and clinical prototype testing.

EDUCATION

B.E. Biomedical Engineering — Minor in AI/ML
Hindusthan College of Engineering and Technology (Anna University Affiliated), Coimbatore, India
